TBILISI - THE CITY THAT LOVES YOU

Tbilisi, one of Europe's oldest capitals, has been the cultural, political, and economic center of Georgia for fifteen centuries. The historic Old Tbilisi, built during the early Middle Ages, is a must-see for visitors, housing iconic sites such as the 17th-century baths and the religious diversity of Georgian Orthodox, Armenian, Catholic, and synagogues.

The Metekhi Temple, a 13th-century Georgian Orthodox Church, offers breathtaking views of the city. Mtatsminda Park offers a variety of dining options, amusement park rides, and secluded corners for relaxation. Tbilisi Modern style is characterized by its facades and painted entrance halls.

Tbilisi offers a blend of history and modern amenities, with attractions like the daily puppet presentation called The Circle of Life outside Gabriadze's Marionette Theatre.

Georgian cuisine is a unique blend of flavors, with restaurants, cafes, bars, and a dynamic nightlife. Rustaveli Avenue, the city's main thoroughfare, features historic buildings like the Parliament of Georgia, the Opera House, the National Gallery, Rustaveli Theater, the Modern Art Museum, the National Library, and Kashveti Church. The city is also home to multiple monuments, such as the Sameba Cathedral, the Narikala Fortress, the modern Bridge of Peace, the Hall of Justice, and the President's Palace.
