## International Sustainability Week in Warsaw, 3rd edition

---

Dear Partner,

We would like to invite teaching staff from your university to participate in the 3rd edition of the International Week dedicated to sustainability.

Named the International Environmental and Sustainability Week, this remarkable event presents an opportunity to advance environmental preservation and sustainability.

Event Dates: May 11 - 15, 2026

Location: Vistula University, Warsaw, POLAND

**Link for online registration can be found [here](#).**

Our program offers a comprehensive and interdisciplinary approach to sustainability and environmental issues, including:

- **Academic Activities (Erasmus framework):**

Seminars, workshops, and lectures led by professors from across Europe, covering topics such as Climate Change, Environmental Economics and Policy, Ecology and Sustainable Development, Global Environmental Issues, Renewable and Sustainable Energy, Environmental Technologies, Green Construction, Environmental Education and Public Awareness, Green Finance, and Sustainable Finance.

- **Business Collaboration:**

Workshops and presentations featuring companies engaged in sustainability and environmental initiatives, helping to raise awareness and inspire students.

- **Green Transportation Showcase:**

In partnership with eco-friendly mobility companies, we will exhibit environmentally friendly cars, scooters, and bicycles on campus, encouraging sustainable transport among high school and university students.

- **Student Engagement & Competitions:**

Competitions and activities encouraging students to develop solutions related to renewable energy, waste reduction, climate change, sustainability awareness, and environmental responsibility.

- **Environmental & Sustainability Club Initiatives:**

Our student-led club will host a variety of engaging activities, including green area cleanups, bicycle tours promoting health and environmental awareness, art and music performances, and team sports events.

We aim to involve approximately **2,000 high school students from Warsaw**, in addition to **7,000 Vistula University students** and participants from partner universities, ensuring a dynamic and impactful event.

We would be delighted to welcome you to Vistula University and hope you will join us for this important initiative.

**PS: Attached I am sending the program of the 2<sup>nd</sup> ISW. The new program will be provided in the coming days.**

Kind regards,

-
